

Rainbow Creations, Inc. DIGITAL BORDERS PROGRAM

Border It!

Digital Borders give today's designers the freedom to choose borders completely customized for the space.

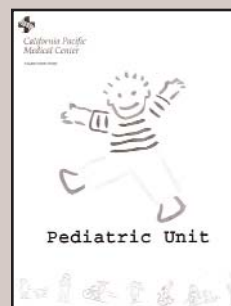

- USE company logos, photography and fine art images to create a custom border.
- ALLOW the images to spread as wide as needed, long repeats are easy.
- CHOOSE as many colors as needed to maximize visual impact -- without extra expense.
- ORDER small or large quantities -- there are no screen set up charges and only a 300 yard minimum.

Experience the ease of digital borders, just like California Pacific Medical Center did.

California Pacific Medical Center: Logo Elements Become Regional

In this custom border project, we were provided with logo elements used by CPMC. We were asked to create a colorful, fun border that had regional appeal. CPMC is located in San Francisco so our artist added the Golden Gate Bridge, a street car and old Victorian homes. After the design was approved, the border was colored to co-ordinate perfectly with the interior scheme.

CPMC First Submittals

The Possibilities Are Endless

Has your designer ever expressed interest in a discontinued border? Come to their aid with a solution from Rainbow Creations. We can easily design a close alternative to the discontinued product. We did just that when we produced the border below, saving the designer from the need to search for an alternative.

Specifications:
Digitally
Printed
Borders

Construction:
Prepasted wall-
paper stock
Put Ups:
5 yard spools
